Fact Sheet

Founded in 1983, the American Academy of Pain Medicine (AAPM) is the premier scientific and educational association for pain physicians and their treatment teams. The AAPM has a membership of over 2,200 medical professionals.

The specialty of Pain Medicine is concerned with the study of pain, prevention of pain, and the evaluation, treatment, and rehabilitation of persons in pain. Some conditions may have pain and associated symptoms arising from a discrete cause, such as postoperative pain or pain associated with a malignancy, or may be conditions in which pain constitutes the primary problem, such as neuropathic pains or headaches. The evaluation of painful syndromes includes interpretation of historical data; review of previous laboratory, imaging, and electrophysiologic studies; assessment of behavioral, social, occupational and avocational issues; and interview and examination of the patient by the pain specialist. It may require specialized diagnostic procedures, including central and peripheral neural blockade or monitored drug infusions. The special needs of the pediatric and geriatric populations, and patients’ cultural contexts, are considered when formulating a comprehensive treatment plan.

We are committed to:

- advancing the practice and the specialty of pain medicine.
- To optimize the health of patients in pain and eliminate the major public health problem of pain by advancing the practice and the specialty of pain medicine.
- standing in a fellowship program in an institution within the United States that are approved by the American Board of Pain Medicine, the Accreditation Council on Graduate Medical Education, or the American Osteopathic Association.
- significant portion of their time treating pain patients and studying pain disorders.
- active in a fellowship program in an institution within the United States approved by the American Board of Pain Medicine, the Accreditation Council on Graduate Medical Education, or the American Osteopathic Association.

**Active Physician Members** – AAPM membership is open to physicians (i.e., doctors of medicine or doctors of osteopathy) who practice medicine in the United States or Canada. These members spend a significant portion of their time treating pain patients and studying pain disorders.

**International Members** – International members are physicians who have a license to practice medicine within their country of origin outside of the United States and Canada.

**Resident Members** – Resident members must be enrolled and in good standing in a residency program in an institution within the United States approved by the American Board of Pain Medicine, the Accreditation Council on Graduate Medical Education, or the American Osteopathic Association.

**Trainee Members** – AAPM provides graduated dues structure for members enrolled and in good standing in a fellowship program in an institution within the United States that are approved by the American Board of Pain Medicine, the Accreditation Council on Graduate Medical Education or the American Osteopathic Association.

**Affiliate Members** – Affiliate members are non-physician professionals in the United States or Canada who provide direct patient care as part of a pain care team or whose principal professional responsibilities support the field of pain medicine. There are two categories of Affiliate membership: Clinical Practice Affiliates and Nonclinical Affiliates:

- Clinical Practice Affiliates must be or eligible to be licensed, registered, or certified in a clinical healthcare profession.
- Non-clinical Affiliates principle professional responsibilities must support the field of pain medicine and not include the promotion or sale of products or services for the treatment of pain.

**AAPM Mission Statement**

To optimize the health of patients in pain and eliminate the major public health problem of pain by advancing the practice and the specialty of pain medicine.

We are committed to:

- the highest standard of patient care
- scholarship, science, and research
- upholding ethical standards and professional integrity
- advancing public health

**AAPM Officers and Board of Directors**

**President**
- Sean Mackey, MD, PhD
- Palo Alto, CA

**President-Elect**
- Bill McCarberg, MD
- San Diego, CA

**Treasurer**
- Steven P. Stanos Jr., DO
- Bellevue, WA

**Secretary**
- Zahid H. Bajwa, MD
- Waltham, MA

**Immediate Past President**
- Lynn R. Webster, MD
- Salt Lake City, UT

**Vice President for Scientific Affairs**
- Daniel B. Carr, MD
- Boston, MA

**Directors-at-Large**
- Miroslav “Misha” Backonja, MD
- Salt Lake City, UT
- Chester “Trip” Buckenmaier III, MD, COL MC USA
- Rockville, MD
- Jianguo Cheng, MD, PhD
- Cleveland, Ohio
- Timothy R. Deer, MD
- Charleston, WV
- Leonardo Kapural, MD, PhD
- Winston Salem, NC
- Tim J. Lamer, MD
- Rochester, MN
- Beth B. Murinson, MD, PhD
- Baltimore, MD

**Liaison Directors**
- Robin J. Hamill-Ruth, MD
- ABPM Liaison Director
- Charlottesville, VA
- Richard L. Stieg, MD
- Representative of Past Presidents
- Aurora, CO
- Rollin M. Gallagher, MD MPH
- Editor, Pain Medicine Journal
- Philadelphia, PA

**Executive Director**
- Phil A. Saigh
- Chicago, IL
